

# NE1B Analogue Boiling Bath Boiling Baths

# Clifton Range®

NE1B-14

Designed for applications that require continuous boiling. This bath also has the flexibility where the control can be regulated from a gentle simmer to a vigorous boil.

Comprising of a stainless steel tank housed in a durable paint finished outer case. Painted surfaces feature a tough anti-bacterial finish with good chemical resistance. Complete with a removable stainless steel perforated false base, drain tap and clear lift off lid. The bath, which is simmer-statically controlled, is ideally suited to prolonged periods of boiling.

Fitted with a sheathed immersion element. With the heater directly immersed in water it provides rapid boiling. A standard feature is a constant level device, which maintains a fixed level of liquid thereby eliminating the need to regularly top up the bath. Not fitted on NE1B-18W.

GENERAL			
Chamber Capacity	14 Litres	18 Litres	28 Litres
Temperature Range	Simmer to boiling at 100°C		
Temperature Control	Featuring an energy regulator which controls the amount of boiling from a gentle simmer to vigorous boil		
Heater Power (220-240V)	2500W		
Voltage	230V / 50-60Hz		
Water Level Alarm	Features low liquid level float device, heating automatically suspended		
Sterilising Tray	✗	✓	✗
Clear Lift Off Lid Supplied	✓		
Drain Tap Fitted	✓		
Constant Level Device	✓	✗	✓
DIMENSIONS			
External (mm)	362w x 332d x 290h		538w x 332d x 290h
Internal (mm)	325w x 300d x 150h	325w x 300d x 200h	500w x 300d x 200h

## Low liquid float device

A low liquid float device protects the heaters and a red warning light on the front panel alerts users to refill the bath.

## NE1B-18W

Raise and lower sterilising tray along with pair of guide rail assemblies comes as standard. Provides a safe method of lifting sterilised items from boiling water. Excess hot water drains away.
